Mikail Aziev

Web developer

Skills

HTML, CSS (SCSS), JavaScript, Vue.

PHP, Laravel, MySQL, Elasticsearch.

Webpack, Vite, Git, Docker.

Experience

Mikail has about 10 years of experience in web development.

Solvo, Russia (October 2013 — May 2017)
http://solvo.team/

Worked at Solvo as Senior Developer. Created some projects based on Laravel:

- Hoam (https://hoam.ru/) — advertising website with crawler (parsing) functionality.
- Azkar (http://azkar.ru/) —muslim directory with azkars.
- CodePaper (https://codepaper.ru/) — website with articles related to IT.

Also created projects based on other CMS/Frameworks:

- Vaimart (http://vaimart.ru/) — food shop.
- Namazvdom (https://namazvdom.com/) — muslim directory for learning about prayer.

Hicaliber, Australia (May 2017 — July 2018)
http://hicaliber.com.au/

Worked on JumpOnAndStay (https://jumpon.online/) — website related to real estate with complex logic of rates, seasons, availabilities, etc., which has more than 1K registered users. Created very usable panel for managers with different roles.

VST, United Arab Emirates (September 2018 — January 2019)
https://www.vstinc.com/

At VST worked on:

- Crowdendue (https://staging.crowdendue.com/) — crowdfunding platform.
- VST corporate website (https://www.vstinc.com/new/).

THAR, Netherlands (November 2019 — February 2023)

tharonline.nl

Worked here on an e-learning platform for logistic companies.

Education

Southern Federal University, Rostov-on-Don (2010 — 2015)

Graduated as a Specialist of Information Technologies.

Languages

English — Intermediate

Russian — Bilingual
